ABOUT US

CS Solutions s.r.o. and CS Safe Solutions s.r.o. are dynamic and ambitious holding companies; inspired by the latest global market trends ensuring the safety and security of persons, private entities and government organizations. Both companies provide a high level of professional service in the fields of safety, preparation, training and the protection of persons and property. Services are provided by experienced professionals – both male and female – who have gained their experiences during many years of work within specialized departments of state security services or during intensive private security operations in the Czech and Slovak Republic as well as abroad.

OUR PRIORITIES

- Professionalism
- Loyalty
- Discretion
- Accountability

TRAINING, BE SPOKE SAFETY AND RISK MITIGATION COURSES FOR GOVERNMENTAL AND PRIVATE ENTITIES

Professional development training courses, specialist complex courses as well as team-building events developed and provided by us, allow clients to increase professional competence, to gain build upon real-world knowledge and experience, and to develop result-oriented teamwork. These courses are carried out under the supervision of experienced lecturers and tutors, often world-recognized. Training and development focuses on coping with risk and threats and on the use of preventative and protective security, situational awareness, communication, emergency medical response, navigation, in addition to other techniques.

AERIAL DIVISION

CS Solutions s.r.o. is able to provide services such as, securing of premises, facilities, lands, product pipelines as well as public spaces during social events using its own unmanned aircraft – drones and airships.

Within our Aerial Division, we also have manned rotary wing aircraft at our disposal for selected security projects, training courses, or passenger transport.

PERSONAL PROTECTION AND FOREIGN BUSINESS MISSION

We provide an extensive and complex set of services for analysis, prevention and direct protection against all potential risks, which may jeopardize a client in his/her work area as well as in his/her private life, both at home and abroad. Personal protection services for domestic and foreign business missions are offered not only to private persons or to representatives acting within on exposed positions in the commercial sphere, but also to members of diplomatic or state administration and their family members.

SPECIALIST SERVICES

We provide sought after, consultancy, from conception through to and beyond in project implementation. We are able to provide vulnerability, penetration, reliability testing of system and individuals, mystery shopping, and other activities in order to obtain information on potential security weaknesses and deficiencies that could facilitate a possible attacker to threaten our client's interests. Up on client's request we are able to investigate internal crime using our own operative resources and analytical tools. Another area is the implementation of measures to protect victims of antisocial behaviour such as stalking, mobbing, harassment, etc. CS Safe Solutions, s.r.o., is licensed by Czech National Bank, so it is authorised to conduct training on the identification of counterfeit banknotes.

SECURITY AND GUARDING, TECHNICAL AND ELECTRONIC SAFETY

Up on request we are able to carry out special security services, including physical and technical securing of offices, houses, lands, facilities and sites. We provide technical counter surveillance inspections in order to confirm or deny the presence of eavesdropping devices. We also are able to implement system technical measures against theft or misuse of data contained in computer technology and communication channels used. We offer advice for secure communications, sensitive data storage and protection against electronic attacks.
